Southwest Association of Freshwater Invertebrate Taxonomists

2010 Membership Renewal Form

The Mission of the *Southwest Association of Freshwater Invertebrate Taxonomists (SAFIT)* is to promote a better understanding of the taxonomy and systematics of macroinvertebrates in support of the assessment of biotic conditions in the inland aquatic ecosystems of the southwest United States. Fundamental to this mission is the standardization of the identification and reporting of taxa. SAFIT fosters research, education, training and professional development of environmental scientists, as they pertain to inland aquatic macroinvertebrates.

General Membership Benefits

Benefits include but are not limited to:

1. Support of taxonomic work and development of taxonomy standards
2. Training and Workshops
 - Taxonomic workshops available at lower cost to members
 - Procedural workshops
 - Collecting trips
 - Bug Fest at no cost
3. Information exchange: including interaction with other taxonomists at meetings
4. Access to members only section of website for:
 - Email list
 - Quarterly newsletter
 - Latest literature announcements
 - Employment announcements
 - Business opportunities
 - Posting of job announcements
5. Regional and national bioassessment workshop information
6. Annual meeting
